

# META ADS FOR EDTECH COMPANY

## OVERVIEW

Meta Ads, formerly known as Facebook Ads, are a powerful tool for businesses and marketers to reach their target audiences across Meta's platforms, including Facebook, Instagram, Messenger, and the Audience Network.

## Audience for Meta ads –

### Demographic Targeting:

- **Age and Gender:** Target users within specific age ranges or genders.
- **Location:** Define audiences by country, state, city, or even specific postal codes.

### Interest Targeting:

- **Hobbies and Interests:** Reach users based on their interests, such as fitness, cooking, or technology.
- **Behavioral Interests:** Target users who have shown interest in specific types of content or products.

## **Behavioural Targeting:**

- **Purchase Behaviour:** Target users based on their online shopping behaviour or past purchase activity.
- **Device Usage:** Target based on the devices users use, such as smartphones, tablets, or desktops.

## **Location-Based Targeting**

### **Urban vs. Rural Areas:**

- **Urban Areas:** Generally, urban areas have higher internet penetration and access to technology.
- **Rural Areas:** If your edtech product addresses specific needs in rural areas (e.g., remote learning solutions), you might want to target these regions as well.

## **Age-Based Targeting**

- **Age Group:** Typically 5-18 years old. Focus on parents and guardians who are looking for supplementary educational tools for their children.

## **Step to create ads –**

Here's a brief view how to create Meta ads –

- 1) Define your objective
- 2) Built Meta Business Account
- 3) Know your Audience
- 4) Built a Campaign
- 5) Define your ad set
- 6) Create your ad
- 7) Track and optimize
- 8) Stay updated

## **Challenges faced-**

Creating Meta Ads (formerly Facebook Ads) can be highly effective for reaching targeted audiences, but several challenges may arise during the process.

- 1) Ad placement and optimization
- 2) Targeting challenges

3) Creative Development

4) Performance measurement

## **Learning from the Project-**

### **1.Target Audience Identification**

Learning: You'll develop skills in identifying the right audience segments based on demographics and educational needs.

### **2. Ad Creative Development**

Learning: Creating effective ad copies, visuals, and calls-to-action that resonate with the target audience.

### **3.Performance Metrics and Analytics**

Learning: Understanding and interpreting ad performance metrics such as click-through rate (CTR), conversion rates, cost-per-click (CPC), and return on ad spend (ROAS).

### **4.Understanding the Sales Funnel Learning:**

Mapping the customer journey from awareness to conversion and creating ads for each stage of the funnel.

### **5.Cross-Platform Integration**

Learning: Integrating Meta Ads with other marketing tools and platforms like Google Analytics, CRM systems, or landing pages.
